

SprayMaster Automatic Spray Systems

SprayMaster™

SprayMaster SM55 and SM30 Automatic Spray Systems: consists of a 1/2 horsepower electric motor-driven pump controlled by a solid state electronic timer that is programmed to dispense an insecticide formulation in the form of a very fine mist at specific intervals through special spray nozzles. The result is a state of the art, hassle-free solution to control of harmful flying and biting insects in and around horse barns. (Use with Pyranha products: 1-10 HP™, 1-10 HPS™ and ODAWAY™)

Protect your horses from the ravages of fly season with a Pyranha SprayMaster Automatic Spray System in your barn. Enjoy a pest free fly season - effortlessly! The SprayMaster's solid state electronic timer is programmed to dispense an insecticide formulation in the form of a very fine mist at specific intervals through special spray nozzles. The result is a state of the art, hassle-free solution to control of harmful flying and biting insects in and around barns.
